

FOREIGNERS ARE IN
SERIOUS DANGERAN OUTSIDER'S HEAD ISN'T
SAFE IN PEKIN.

Outlook Is Not Cheering to Those Who Have Relatives Among the Slant Eyed Soldiers—Satolli May Be Recalled—General News of the Foreign Nations.

PEKIN, Oct. 1.—The danger to foreigners in the city and provinces is considered serious. Owing to the protest of Great Britain the Tsung Li Yamen has ordered the release of the British steamer Pathan, recently seized by a Chinese warship on the suspicion that it was carrying contraband of war. Viceroy Li Hung Chang's enemies sedulously encourage the Dowager empress in the belief that the defeats of the Chinese forces were due to his incompetency and corruption. An imperial decree has been issued appointing Prince Kung, the Emperor's uncle, the president of the Tsung Li Yamen and the president of the Admiralty as a special committee to conduct the war operations.

SATOLLI MAY BE RECALLED.

High Church Dignitaries the Authority
For the Statement.

ROME, Oct. 1.—A high ecclesiastical dignity was seen to-day with regard to the expected changes in the administration of the Catholic church in the United States. He said: "It is quite true the pope is preparing a document concerning the United States. This document will deal with the general position of the church there. It may also discuss the Washington delegation. During his stay here Mgr. Keane submitted to the pope a plan for making the delegation independent of the propaganda and directly responsible to the pope. The pope has had the plan under consideration, but it is not yet sure he will give effect to it. Moreover, even if the pope adopted the measure in question, little would be altered in the existing state of things. The present mode of procedure would more be quickened. Instead of passing through the intermediary of the prefect of the propaganda, Mgr. Satolli would refer matters to the pope direct. The question is one of form rather than of substance, and especially as the pope has already authorized Mgr. Satolli to judge a large number of cases which formerly would have had to be submitted to the propaganda. As to assuming, as Mgr. Keane says, that the pope will transfer the administration of the American church to Washington, the idea is absurd. The measure in question, if it is taken, will only be a simplification. An apostolic delegate's power is always closely limited. The situation may be summed up in these terms: The pope wishes to maintain and strengthen the delegation, but Mgr. Satolli will certainly be recalled."

WAR AGAIN DOWN IN BRAZIL.

Insurgents Engage the Government Troops
in Rio Grande do Sul.

BUENOS AYRES, Argentina, Oct. 1.—Word is received here that fighting has broken out again in the Brazilian Province of Rio Grande do Sul between the rebels and the government troops at four different points, and that the insurgents are getting the better of it. They have arms and ammunition and declare they will now fight to the bitter end. In all the frontier towns the people are joining the revolvers, and the affair seems to be a reopening of the war. Saldanha da Gama and a lot of the Brazilian exiles in Montevideo protest against the resumption of hostilities. They say it is prejudicial to the restoration of peace and the right to return to their homes, which they hope will be granted them when Moraes assumes the presidency.

Vienna Socialists Become Turbulent.

VIENNA, Oct. 1.—The socialists of this city yesterday held a demonstration in the Ring Strasse in front of the house of parliament. Fourteen of the leaders were arrested.

DAMAGED BY HEAVY GALES.

Beach Property About New York the
Chief Sufferer—At Other Points.

NEW YORK, Oct. 1.—Damage which will amount up into the tens of thousands of dollars was done by the storm yesterday afternoon and last night at Brighton and Manhattan Beach. Two hundred feet of the outer bulkhead which protects the Brighton Beach hotel was torn away and the inner bulkhead was badly damaged. The Marine railway, running from Manhattan Beach, was badly washed out and the track nearest the sea was completely wrecked. The water at high tide entirely surrounded the Brighton station of the road, tore up all the platforms about the station and the railroad walk leading from the hotel. The railroad walk leading from the ocean to the Brighton hotel was covered with sand washed in at high tide, when the water rushed in back of the Brighton hotel, through the horse sheds, which were inundated, and into the Brighton Beach race track.

ATLANTIC CITY, N. J., Oct. 1.—The northeast storm which has been raging along the coast for several days increased in fury last night. Heavy gales played havoc with the telephone and telegraph wires and the surf was dangerously high. The electric railroad on Brigantine beach has been washed out in several places on the lower end of the beach and it is feared the big steamboat wharf will go, as it is rapidly weakening.

BOSTON, Mass., Oct. 1.—The coast of Southern New England was visited by a fierce gale yesterday, which caused unusually high tides, but which, having been anticipated for several days, did only slight damage to shipping. The harbor is filled with south-bound vessels which are waiting for the storm center to pass out of their course.

ROBBED AND BEATEN.

Wealthy Stockman and His Wife Nearly
Killed by Masked Men.

TIFFIN, Ohio, Oct. 1.—Levi Keller, a wealthy stockman and one of the most prominent citizens of this county, was robbed last night of over \$500, besides being unmercifully beaten by his assailants. They then stole a horse and rig and fled. They are completely surrounded and there is no chance of escape. The excitement in the neighborhood is intense and it is hard to tell what the fate of the brutes will be when captured. Mr. and Mrs. Keller are both in a critical condition and the latter may not recover. It is thought the men are the same who held up Miss Mary Bloom, a school teacher, and robbed her of \$180 last Tuesday night.

FIVE BOYS KILLED
AT WOODSTOCK, ILL.FATAL WRECK ON THE NORTH-
WESTERN YESTERDAY.

Lads Were Riding in a Carload of Lumber When the Car Jumped the Track and the Sliding Timbers Crushed Their Lives Out—Names of the Dead.

WOODSTOCK, Ill., Oct. 1.—An accident by which five boys lost their lives and two others were injured, one seriously, occurred near this city early yesterday morning on the Chicago & Northwestern railway.

The dead: DAVIS, TERRIT, Mount Morris, Ill. ED—, known as "Milwaukee Ed," Milwaukee, Wis.

LITTLE, BERT, Freeport, Ill. TWO UNKNOWN BOYS.

The injured: GRADY, JOHN, Fall River. NEWMAN, SAM, Freeport, Ill. UNKNOWN MAN, leg broken and injured internally.

As a heavily loaded freight was approaching this city the axle of one of the cars in the center of the train broke, throwing the car and two others from the track. The car causing the accident was loaded with lumber and it seemed the boys were riding on top of the lumber inside of the car and the car leaving the track caused the lumber to slide over and upon them, killing five and injuring the other two. Word was immediately brought to the city and a force put to work removing the dead and the injured to this city. The dead are all boys ranging in age from 13 to 21 and some appear to be of respectable families. The inquest held revealed no new facts and the verdict was in accordance with the above statement.

SWITCH OPEN TO WRECK A TRAIN

Engineer and Fireman Killed at Toledo,
Ohio.

TOLEDO, Ohio, Oct. 1.—Lying at the Toledo hospital are two dead bodies as the result of a bad wreck on the Wabash Pacific mail and express yesterday morning. Some miscreant had tampered with the switch, leaving it partly open, and the target indicating everything clear. No. 42 is due here at 7:30 a. m., but its engine had given out at Defiance and the change of engines threw the train back several minutes from schedule time. It was running at the rate of about fifty miles an hour, hoping to reach Toledo within the limit, when, dashing into the open switch, the cars were derailed, mail cars destroyed, engine overturned and the engineer, F. N. Smith, instantly killed, while the fireman, A. H. Day, was mangled, and after a few hours of agony expired at the Toledo hospital.

The train is almost a complete wreck and the passengers did not reach Toledo from the scene of the wreck, eleven miles distant, until late in the afternoon. The men were comparative strangers in the city, having come here to take the places of men who were dropped during the Wabash trouble resulting from the recent strike. While it is not known who threw the switch, a number of tough-looking tramps were seen about the locality early in the morning, and the crime is naturally laid to them, the supposed motive being robbery.

SAFE BLOWERS DID
A NEAT \$2,000 JOBPOSTOFFICE AT GALLATIN, MO.,
LOOTED.

Cracksmen Wound the Strong Bar With Wet Blankets to Deaden the Sound and Got Away With the Money—Forger in the Toils—Heavy Express Robbery.

ST. JOSEPH, Mo., Oct. 1.—The postoffice at Gallatin was burglarized last night. The safe was blown open and robbed of \$2,000 in stamps and money. There is no clue to the robbers. Entrance to the postoffice was effected by prying open an iron shutter and breaking a window. The safe was carefully wrapped in heavy, wet blankets to deaden the sound of the explosion. Giant powder was used in blowing open the safe doors, a deep hole having first been drilled near the lock and the powder poured in. The force of the explosion was terrific, as the door of the safe was thrown to the opposite end of the building. The robbers evidently became alarmed, and after hurriedly looting the safe decamped, leaving a complete outfit of burglars' tools.

Alleged Forger in the Toils.

WICHITA, Kas., Oct. 1.—T. R. Hazzard, president of the Bank of Sedgewick City, who, it is alleged, with others defrauded J. W. CLAIM MINING LANDS.

Squatters Attack the Titles to Valuable
Property in the Gogebic Range.

DULUTH, Minn., Oct. 1.—Attacks by squatters under the homestead law have been made within the last few days on the titles to the most valuable mines of the Gogebic range. The fight is a new phase of the old troubles resulting from the grant of 250,000 acres made to the Portage Lake canal some forty years ago. All of the big Gogebic mines with the exception of the Coby are involved. The squatters base their claim upon a proclamation made by President Fillmore declaring the lands in question mineral. As such they were not subject to selection under the canal company grant, and hence the canal company has never had title to pass. The companies on their side, it is said, will depend for their defense upon the fact that the title under which they hold has been undisturbed long enough to come under the decision on adverse possession.

Been Buried Fifty-four Hours.

CARBONDALE, Pa., Oct. 1.—John J. Fanning, William B. Mitchell, George Barney, and Andrew Klaskesky, the four miners who were entombed in the slope of the Northwest Coal company Thursday, were rescued at a late hour last night. All are alive and well and do not seem much the worse for their long imprisonment. As soon as an opening was made refreshments were passed to the prisoners and their hunger and thirst were satisfied before they reached the surface. The men were without flight and food for fifty-four hours. They procured water from a miniature well which they dug in their cell. In consequence of having been so long in darkness, Fanning, when taken out of the shaft, was unable to see a lamp held two feet away from him. None of the men could remember whether they had slept, and said the sensation was like that of a person in a trance.

Health in a Coal Mine.

A physician asserts that disease is no more demoralizing in its raids among the workers in coal pits than it is among the agriculturists and laborers. If one can be guided by statistics, the coal-dust atmosphere in which their life is passed has no element of any serious evil to them. It may not be pleasant, but it is not unhealthy; indeed, the actual death-rate of these miners is not abnormally high, even when it includes the fatal wholesale disasters which occur from time to time in the pits.

Checks for Bicyclists.

Deaconson—Our minister has struck a novel idea; he's set aside a room for bicyclists, where they can check their machines while the service is going on. Headerman—That's all right as far as it goes, but if your minister would only devise some scheme to compel bicyclists to check their machines while they're flying along the streets, he'd receive far more thanks than he ever will for accommodating them in a church.

MILWAUKEES FALL BEFORE THE LOCAL

JANESVILLE ATHLETICS BEAT THE LEAGUERS.

It Was a Hot Game and Everybody on the Bleaching Boards Tried to Crowd Over On the Diamond In the Fateful Ninth Inning.

Pitcher Stephens, the crack twirler of the Milwaukee League club got a pretty hard pounding at the hands of the Janesville players yesterday. They opened up on him at the start and before he was fairly awake they had six runs chalked up on the bulletin board. Morrissey, Birmingham and John Wilbur had good eyes and hit Stephens whenever they wanted to. Old Pete Lohman of the visitors also had his batting eye right with him. Out of five times at bat he lined out three singles, a triple and a home run. Stephens came out with two singles and a four sacker. Connors George Wilbur and Morrissey fielded their positions well while Gus Klopff played a fine game at second for the visitors. Taking it all through it was the most exciting game ever played on the home ground. In the ninth inning everybody stood up and "rooted" hard. A hit from Gus Klopff's bat would tie the score but McGinley held his nerve. The crowd pressed forward the fans on the bleachers lined around the players and when Shicker called the third strike on Klopff there was a howl that could be heard at Beloit.

The home team started the run, getting in the first with two runs. George Wilbur got first on Brooks' error, reached third on Birmingham's single, Mike going to second on the throw in. Wilbur scored on Fred Dixon's long fly to left and Birmingham on Morrissey's single. In the second they pounded Stephens for four rounds. John Wilbur put the first ball pitched over the fence for a home run; McGinley reached first on Brooks' error, but was forced by Fred Dixon who scored on George Wilbur's two-bagger; Wilbur scored on Birmingham's drive over the fence. Lohman's single and Stephens' home run gave the visitors two in their half. Sullivan made the circuit in the third on Riley's error, John Wilbur's single and Lohman's wild throw over second. In the fourth, the visitors looked dangerous. Buestring led off with a single and Pete Lohman drove one over the fence; Stephens struck out; Carr got a life on Connors' error, reached third on Wolf's single and scored on Gus Klopff's jolt to right, counting three runs with Wolf on third and Klopff on second. Brooks hit a high-liner that George Wilbur pulled down and threw to third, making a double play and everybody yelled.

The home team landed three in the sixth on G. Wilbur's single, Birmingham two-bagger, Dixon's base on balls, and singles by Morrissey and Connors. Lohman led off in the sixth; with his third hit, went to second on Stephens' out at first. Carr flew out to Sullivan and Lohman stole third; Wolf got hit by pitched ball and got first; Klopff hit to Birmingham, who had an easy chance for the third out at first, but he threw home to catch Lohman. Dixon juggled the ball and the Californian scored. Singles by Lohman and Stephens' and Birmingham's error gave the Brewers two in the seventh, and two-baggers by Fred Dixon and Birmingham, gave the locals their last run in the eighth. In the ninth the visitors made a rally at the bat and came within one of tying the score. E. Klopff got first on Morrissey's error, and Buestring followed with a single. Lohman drove out a three-bagger that scored Klopff, but Buestring got caught at the plate. Stephens' single scored Lohman, and Carr flew out to right; but a minute later, J. Wilbur muffed Wolf's fly, and Stephens reached third. With two out a man on third and the score 11 to 10 in the Athletics' favor and Gus Klopff to bat it became very exciting. Everybody was standing and ready to yell, and when Klopff struck out the atmosphere was ripped open. A happier crowd never left a ball ground. There was considerable money changed hands and a good many were suggesting that Janesville ought to have a league club next season.

LO'S SWINDLING MIND WAS NIMBLE

E. B. Heimstreet Has a True Story of the Red Man's Way.

Lo, the poor Indian is fruitful in schemes to beat the white brother. E. B. Heimstreet can prove the assertion. Mr. Heimstreet has a friend in Portage who buys gingseng, a most pungent root, of the Indian for shipment to China where it commands good prices. The last lot he bought was stored away without examination, he having paid \$2 a pound for it. When he was preparing it for shipment he thought that it was heavy and then Lo's perfidy became apparent. He had split each stalk, scooped out the pith and then filled the hollow with buck shot. The green root sprung back into place and the fraud could not be detected until the root was dried.

A Disputed Case.
Many persons dispute the question as to whether or not baldness caused either by disease or neglect can be cured. In deciding the question allow us to say that most cases can be cured, while others cannot. Only a specialist of years of experience can tell this. Professor Birkholz, the world-renowned German specialist of the Masonic Temple, Chicago, where those who desire a good head of hair or beard can consult him in private, and free of charge. After a thorough examination, which costs you nothing, we will tell you whether or not you may procure that trait of personal adornment so necessary to your existence, and if we find that the follicles are not all dead, we will treat you and guarantee the results or ask no pay. Call on or address Professor Birkholz, 1011 Masonic Temple, Chicago, Ill.

Many old bachelors remain old bachelors because they hear so much complaint about babies. The fact is that a baby is not one quarter the trouble it is charged with being. Any young couple can get along with one if they try. Papa can sit up half the night with it and mamma can sit up the other half. What could be simpler?

Old John was a shoemaker, an Irishman, and an ardent admirer of the duke of Wellington. To describe the battle of Waterloo was his chief pleasure. He always wound up the narrative, sitting with his hammer poised, his spectacles pushed back on his forehead, and his whole appearance indicating the utmost enthusiasm, with the words: "An' the duke sez, sez he, 'Up, gyards, an' at 'em!' an' wid that simultaneously, at the same time, all to oncet, the gyards upped an' atted at 'em. An' that settled it."

STOCKING STITCHES.

It pays to buy good stockings. Fine stage and dress stockings are French made.

The Spanish were among the first to knit fine stockings.

White silk stockings go with the bridal slippers, but nowhere else.

Silk stockings should be cleaned like other silk goods and not washed.

Put warm stockings, even though coarse, upon the child as the chill of winter approaches.

Use a little ox gall and no alkali in washing black stockings. Dry them quickly in the house.

Queen Elizabeth, in 1560, was the first woman in England to wear knitted silk stockings.

In their native lands Scotch and Irish girls seldom wear stockings, except upon dress occasions.

It was doubtless of the stocking that it was first said, "A stitch in time saves nine." It might have said many times nine.

JNO. MALLON, Esq., No. 21 Mallon St., Mt. Adams, Cincinnati, O., writes: "I took sick with dropsy, lost my appetite, could not sleep, became feverish; always thirsty, lost all strength, stomach became painful, breath short and had to give up work. The best physicians in Cincinnati failed to help me. My limbs and body were swollen to enormous size, and I was suffering terrible agony. The doctors all said I could not get well again, that I was liable to drop dead at any moment. My wife sent for the priest, to prepare me for death. While waiting for death, I remembered reading of your 'Golden Medical Discovery,' and thought I would try it as a last hope. When I had taken three bottles, I was almost well. The swelling entirely disappeared and I was soon able to resume work. My health is better now than it has been in twenty-five years."

Nothing Short

... Of Wonderful.

You have of course, read the detailed account which appeared in this paper Friday evening of our immense purchase of SILKS at the greatest silk sale which ever took place in this country. On the 19th and 20th at New York, Messrs. Schwarzenburg, Huber & Co., had sold for them at auction 8200 pieces of silks, being the production of their six large mills in Europe and America. There are many merchants doing business in cities larger than Janesville who could not have bought the quantity we bought at any price. Why? Because they would have been informed in language plain that it was too much for them to sell; the auction men would have suspected that they meant to load up and then fail to make money. There is no mistake about it being an enormous quantity of Silks, but, few people realize the extent of our business. We bought the Silks at figures so low that we could well afford to go in heavily. Our customers will get the greatest silk benefits they ever heard of. We have examined the silks carefully and marked them at prices that wholesale houses would offer them for. The silks show for themselves; the prices TALK. The lot comprises:

Black Rhadames, 60c to \$1.65. Black Beau de Soie, \$1 to \$1.50.
 Black Satin de Lyon, \$1 to \$2. Black Satin Dutchess, \$1 to \$2.50.
 Black Pekin Reys, \$1.75. Black Gros Grains, 65c to \$1.75.
 Black Taffetas, 85c and \$1. Colored Marvellaux at \$1.50,
 Black Satin Brocades, \$1.25. being \$2 quality in evening tints,
 Colored Beau de Soie at \$1. cream, pink, light blue.

It will pay any one good interest on their money to buy a silk and lay it away if you do not need it now.

WE KEEP THE QUALITY UP.

THESE CRISP BITS ARE TIME-SAVERS

NEWS OF THE DAY IN BRIEF FORM.

By Running Your Eye Down This Column You Find Out What Is Happening In All Parts Of The Bower City—Short Supper-Time Songs.

C. H. KUECK missed his cow when he got up the other morning and neither he nor his clerk could find her. When he came down town he found that a neighbor had put the bovine up at Will Davis' livery stable. "He never told me anything about the cow committing any depredations," said Mr. Kueck this morning, "and I don't think it was a neighborly thing to do. I rented a pasture on purpose, locked her in and if she broke out and did anything wrong I should have made it right."

NEVER abuse the confidence of the people. When you promise them anything, great or small, give it to them just as you agree. For instance nine tons of coal out of every ten that have been sold this summer was sold on a guaranteed price, and every dealer that refuses to pay back the fifty cents a ton is practically stealing it from his customers. Come and see me and get your fifty cents a ton of coal or wood. J. H. Gateley.

F. M. MARZLUFF was heard to say yesterday: "Quite a feather in my cap to be compared with McKinley, Reed and the best of them; especially by such brainy fellows. Maybe these cute fellows could tell us why Wilson made that speech in London. Was it because of too much booze, lack of brains, or both?" Come, boys, tell us all about it. In the meantime look out that you don't die of the cuts.

"The College Two Step" is the name of a new and very sprightly composition for the piano by F. A. Vaughn, leader of the University of Wisconsin band. The piece was played by the club when they were here last winter, but since then Mr. Vaughn has arranged his composition for the piano. He is a son of O. S. Vaughn, the popular St. Paul conductor, and resides at Madison.

Dr. E. D. ROBERTS, E. L. BROWN, Sanford Soverhill, B. M. Codman and Charles B. Downing will leave Janesville to-night for the wilds of northern Wisconsin, where they will entice the young fawn and haughty stag from their native lair, and slay them. They go to Merrill by rail and from there push out into the wilderness.

OWEN COX, a farmer, was caught between a telegraph pole and a wagon tongue in Beloit and was terribly crushed. He may not live. Several ribs were broken and one was crushed into his right lung. Air comes out under the skin with each respiration.

COMPLETE your sets of World's fair views. Memories of the great exposition are treasures to be guarded jealously, and in no way can they be recalled as vividly as by well-executed pictures. Call at the Gazette office for Shepp's series. A few complete sets may still be had.

WE are unloading a car of Hanson's smooth Snowflake potatoes today, seventy-five cents a bushel, seventy cents in lots. Grubb Bros.

A HUNTING party is being organized in this city to scour the prairies of the

Michigan peninsula for bear and big game. The party intend to be absent three or four weeks.

SOME people do not hear of changes till long after they happen. We want our readers to know that there has recently been a great change in the prices of watches. A. F. Hall & Co., "the reliable jewelers," opposite the Myers House, will tell you all about it, and you will be surprised to find how little money is required to buy a good watch.

WOMEN who are thoroughly posted as to Chicago and Milwaukee silk values pronounce ours, from the big sale, far ahead. One has but to see a few of them to appreciate what we are doing for the people. Large ad tells. J. M. Bostwick & Sons.

FARM SWEEP CLEAN BY A WAVE OF FIRE

JESSE PUTNAM LOSES EVERY- THING BUT HIS HOUSE.

Barns and Sheds With Eight Horses and the Season's Harvest All Went Up In Smoke and His Insurance Is Light—The Origin Is a Mystery.

Everything that Jesse Putnam owned, except his residence, went up in smoke Saturday night, and his fertile town of Harmony farm is a dreary looking waste. Mr. Putnam resides near Emerald Grove, and at 10 o'clock Sunday night, a neighbor saw his barn was on fire. He mounted a horse and rode to Mr. Putnam's as fast as possible and arrived just as Mr. Putnam discovered the blaze himself. They could do nothing to check the flames, and the barns, sheds, corn-crib and other buildings were all destroyed. In the barn were six horses, all of whom were either roasted or smothered. His crops of tobacco and grain that were stored in the buildings are all a total loss, and with comparatively light insurance in the La Prairie Company. Mr. Putnam and his family were all asleep when the fire started, and have no idea of its origin. Mr. Putnam estimates his total loss at \$3,000, with \$1,500 insurance.

Pierce-Behrendt.

Fred Pierce and Miss Lillie Behrendt were quietly married this morning by the Rev. A. H. Barrington rector of Christ Episcopal church and at once left on a wedding trip which will terminate in New Orleans, where the groom is now located. The announcement will probably cause some surprise in Janesville, but the knowing ones smiled when Mr. Pierce came to Janesville a few days ago, and predicted the result. The bride is the daughter of Mr. and Mrs. Anton Behrendt, of the Union House, and is a young lady whose many good qualities are apparent to and appreciated by all who knew her. She was born and raised in Janesville and many friends won by her pleasant ways will wish her success. The groom is a young man well known to Janesville people and formerly resided here. Some time ago he removed to Los Angeles, California and from there went to New Orleans where his business is now located.

GREAT silk doing these days at the Big Store.

ON account of our hall not being in readiness, the regular K. P. meeting for tonight will be postponed for one week. S. A. Chase, C. C.

COTTON flannel is being disposed of fast at T. P. Burns', where it can be purchased for ten cents a yard, actually fifteen cent flannel; five hundred yards will not last long.

A Mutual sentiment.

Horace Greeley once wrote a note to a brother editor in New York, whose writing was as illegible as his own. The recipient of the note, not being able to read it, sent it back by the same messenger to Mr. Greeley for elucidation. Supposing it to be the answer to his own note, Mr. Greeley looked over it, but likewise was unable to read it, and said to the boy: "Go take it back. What does the damned fool mean?" "Yes, sir," said the boy: "that is just what he says."

Humpty-Dumpty.

It is not generally known that "Humpty-Dumpty" was not originally a nursery rhyme, but a political satire at the expense of King James II. of England—Humpty-Dumpty being, of course, James himself; the wall the throne, and the king, whose men and horses are in vain brought into requisition, Louis XIV. of France. It was originally written in French; and later the quatrain had the honor of being turned into Latin elegiac verse by Dr. Henry Drury.

Fruit Jars.

The German custom of some one going, in a state of nudity, at midnight on Christmas-eve, to bind the fruit trees with ropes of straw, or the frugal housewives shaking the crumbs from the table cloth around their roots in order that they become more fruitful, clearly points to the mysterious influence attributed by the ancient Germans to the time of the Twelve Nights. In the Tyrol the fruit trees for a similar reason, are soundly beaten.

A Stone Marvel.

There is, on a mantel in one of the residences of a Georgia family, a piece of stone which bears a striking resemblance to an ancient castle, the turrets, massive doors and strong foundations being distinctly marked. The peculiar feature about the little oddity is that to hold it under a gas-light gives the stone the appearance of the building, with many lights reflected from the windows.

WALTER AIRIS NOW SOLE OWNER.

Bought Alex Richardson's Interest in the Rockford Shoe Factory.

Walter Airis is now the sole proprietor of the Rockford shoe store that Richardson & Airis ran. Some time ago the firm decided to go out of business in Rockford, the reason for their intention being that Alex. Richardson, who is the senior member of the local firm, has a dozen of similar stores in different parts of the country and he is desirous of closing his business out in all of them that he may devote his entire time to the manufacture of shoes at his factory. Mr. Richardson visited Rockford the other day and Mr. Airis closed a deal for the purchase of the entire stock, which he will run on his own hook after October 1.

Mr. Airis is well enough satisfied with Rockford, for he has built up and always enjoyed one of the very best trades in the city, and therefore he has no desire to look for a new location. The Register-Gazette says: "His friends will also be glad not to lose him as a citizen, as his intention was to go on the road and possibly remove with Mrs. Airis to Janesville to live."

NEW BLOCK BUILT BY WILCOX.

Murphy & McCue Will Occupy the Building as a Livery Stable.

C. T. Wilcox is preparing plans for a two-story brick building to occupy the site of the old rookeries destroyed Friday morning. It is his intention to have Park street corner completed in sixty days. This will be occupied by Murphy & McCue, who are now temporarily located in the Scott & Hadden barns on Bluff street, with their livery.

OVER THE DARK RIVER.

Mrs. Eugene Bingham.

Mrs. Eugene Bingham died at the sanitarium on Main street at 11 o'clock last night after a long and painful illness. Mrs. Bingham was forty-two years old. She leaves a husband, two daughters and one son to mourn the loss of a loving wife and mother. Her husband is the son of Ezra Bingham of Koshkonong. He is recognized as one of the best railroad men in the country and during the past twelve years has been in the employ of roads in Texas, making his home at Dallas and Fort Worth.

For the past five years Mrs. Bingham has suffered with a disease that has baffled the skill of physicians, and about the first of September her husband brought her to her old home, hoping that change of climate might be beneficial. She was brought to the sanitarium for treatment last Thursday with a view to an operation if in time she became strong enough to endure it, but it was found that she was in no condition for an operation. Last evening she commenced to sink rapidly and at 11 o'clock death relieved her from suffering. An autopsy revealed the fact that internal hemorrhage produced by the erosion of a small artery was the immediate cause of death, and that nothing but an operation many months ago could have saved her.

The remains will be taken to Texas for interment. Mr. Bingham will have the sympathy of many old friends in Rock county.

Mary Margaret Miller.

Mary Margaret Miller, infant daughter of Mr. and Mrs. George Miller, Eastern avenue, died Sunday morning of cholera infantum, aged four months. The remains were buried in Mount Olivet this morning, funeral services being held at St. Patrick's church at 10 o'clock. This is the second death in the family within a few weeks, a little son falling a victim of diphtheria the first of September.

A Specimen Prediction.

Weather Prophet—I hit it again. I never fail.

Ordinary Man—Huh! The thermometer has dropped twenty degrees, and it is raining pitchforks. You predicted fair and warmer.

Weather Prophet—I predicted fair and warmer, with increased humidity. I may have been a trifle off on the fair and warmer, but you can't deny the humidity, sir—no, sir!

Dangerous Proceedings.

Winks—My gracious, old boy! you are all banged up.

Binks—I should say I was.

Winks—What did you do—dispute the right of way with a trolley car or talk like a free-born American to a policeman?

Pure-Blooded Negroes.

The mountains of Jamaica are inhabited by pure-blooded negroes descended from the first slaves who were imported from Africa. Their manner of living is almost as primitive as that of the wild tribes of Africa.

Her Description.

She—You have met the beautiful Miss X., have you not? What do you think of her? He—She is one of those sort of women any man could die for but none could live with.—Indianapolis Journal.

Millions For Defense.

Against the ironies of that subtle, lurking foe to human health, malaria, had been expended uselessly when Hostetter's Stomach Bitters appeared upon the scene and demonstrated its power as a preventive and curative of the dreaded scourge. When the "gold fever" raged in 1849 in California, malaria was contemporaneous with it at the diggings, and wrought dreadful havoc among the miners. Then and subsequently on the Isthmus of Panama, and wherever in the tropics malarial disease is most virulent, the Bitters become the recognized safeguard. For the effect of exposure and fatigue, miasmata of air and water, sea sickness and all disorders of the stomach, liver and bowels, the Bitters affords prompt relief. Invalids of all sorts will find it fully adequate to their needs.

ELLEN'S PET PIGGY SQUEALS IN COURT

MORE TRIALS FOR THE ORFORD- VILLE LANDLADY.

She Avers that She Is Innocent But Judge Phelps Thinks the Matter Had Better Be Sifted And Sets Her Hearing For October 10 and 11.

Ellen Shafer, of Orfordville, called at the municipal court this morning long enough to put in her denial that she kept a blind pig in that hamlet.

Mrs. Shafer was very confident and positive, and to help her denial, and if possible make it more strong and convincing to the court, she employed Attorney William Smith to emphasize her declaration. The bewitching Ellen had to answer on two charges. She failed in both instances, as the judge desired a further hearing and proposed to have some testimony in the case, consequently he assigned Wednesday, October 10, as the time for hearing the first, and October 11 for the second count. Mrs. Shafer's blind pig appears to be quite a bother out in Spring Valley, as three or four more cases of a similar character are now pending in the circuit court. W. G. Wheeler is caring for the state's interests.

"I'm sorry to hear, John that you've lost your wife. But it is true that you had no doctor?" "Aye. It came about this way: A fortnight syne I was ill and gaed to the doctor. He gie'd me a bottle, but when I wane hame I was better, so I didna use it. When the wife took sick I gie'd her the draught, and she died by mornin'. Isn't it a mercy I didna tak' it myself?"—Pearson's Weekly.

Two Women to One Man.

The membership of the Congregational church is composed of 188,187 males and 373,444 females. This is nearly two to one. Last year the number of deaths of ministers was ninety-eight. The average age of these ninety-eight ministers was 68 years 5 months and 23 days.

HOW TO LIVE.

Flat Chests and Those Ugly Hollows in the Neck.

It is easy to make rules for a healthy manner of living, but such rules are difficult to keep for any length of time and sometimes take much comfort out of life. These are good rules to follow: 1. Avoid all excess; excess is man's greatest enemy. 2. Do not change any habit too suddenly, for habit is second nature. 3. Preserve an even and tranquil mind. It is the best guarantee of long life and perfect health. 4. Seek and enjoy pure and temperate air. It invigorates both body and mind. 5. Select with the greatest care the most suitable food. 6. Always preserve a proper proportion between the food eaten and the exercise taken. 7. If you would keep well, be sparing with medicine. After these rules for health, just a word on a matter of beauty—a word of worth to those who

want it. Have you ugly little hollows in your neck and a flat chest? Here is an admirable exercise taught to women who are so afflicted, which, if followed persistently, will develop the chest muscles and fill out all those telltale hollows in the neck: Advance one foot, as in a long step, and stand with the weight on it, extending the arms parallel to each other in front until they are in line with the shoulders, energize them and close the hands as if each were firmly grasping a rope, keeping the eyes steadily fixed on some point about two feet above the level. Inhale slowly, and with great energy pull the extended arms down and well backward; at the same time bend the torso forward, but do not transfer the weight of the body. The head bends backward in opposition to the torso. Hold the position for a moment, then withdraw all unnecessary nerve force from the muscles and exhale as the body returns to the original position.

HOME DECORATION.

It Is the Duty of Rational Human Beings to Be Helpful.

Three-quarters of the advice about home decoration is impractical and leads the unwary housewife astray, but there are some improvements that it is possible to undertake and carry through successfully. For instance, patience, care and several cans of enamel paint will convert a shabby set of deal bedroom furniture into something worth having. The enamel may be put on over the original paint, the furniture being first thoroughly washed with soap and water. Three coats at least are required, and four are desirable. The enamel bought at an art dealer's is far more ex-

LITTLE GIRL'S GOWN.

pensive than that obtained at a regular paintshop and is of a less serviceable quality. The quick drying sort will allow all three coats to be applied on the same day if necessary. If new handles are bought for the bureau drawers, the rejuvenation will be still more thorough and satisfactory.

Enamel is not suitable for the woodwork of a room, but if it is desirable to have the woodwork and furniture alike in color quick drying paint is also sold in large cans ready for use. This simplifies the amateur decorator's work very much and is a great convenience to households who are not within easy reach of a professional painter, especially as workmen, even when bindingly engaged, have a universal habit of postponing their visits from day to day, and so keeping their employers in suspense and confusion.

Every woman should have a collection of light tools suited to her size and strength and know how to use them, for moments often arise when five minutes' intelligent employment of a saw or a plane would clear away some obstacle from the home decorator's path, that without that help must keep her at a standstill until she can secure a man's assistance. It is the duty of every rational human being to be self helpful, and not to find it necessary to rely upon somebody else whenever an emergency arises. In the industrial schools of the future it is to be hoped that boys and girls as well as boys be taught to handle tools and understand machinery.

An illustration is given of a child's frock made of red wool. The front is arranged in an immense box plait, similar to a herald's tabard, while the full back is confined by a belt. A square yoke of gimpure defines the neck, and the full sleeves are gathered into a gimpure cuff.

JUDIC CHOLLET.

PROOF POSITIVE.

The Photograph of the Fish Better Than an Affidavit.

In these days of sophisticated advancement no one believes a fish story unless the proofs are at hand. A Chicago artist who is much given to angling makes periodical visits to Wisconsin lakes and invariably brings back large and terrifying yarns regarding his catch. Formerly one of his favorite yarns was that he pulled out a black bass that seemed to be eighteen inches long, and just as he was taking it in over the side of the boat it got away from him.

One night at his club he related how he and a man from Milwaukee went out before breakfast and got over 120 pounds of croppies.

"What became of them?"

"Well, we ran out of ice and had to give them away," which explanation was greeted with derisive laughter.

He brought home once a long pine stick on which were two notches, indicating the length of a pike taken one evening just as the sun went down, and which lasted the camp three days.

"Anybody can make a couple of notches in a stick," said the skeptics. It is very trying. He would return from an expedition full of enthusiasm and large claims, only to meet some alleged friend who would take him aside and ask, seriously: "Now, between you and me, did you catch anything?"

Finally, driven to an extremity, he adopted the scheme which gave him reputation. He painted on a screen the picture of a small house, such as may be found at any fishing camp.

Against this screen he would hang a six-inch fish, the average size of his catch, and would then take a photograph of the fish and the background. According to the photograph the fish would reach from the caves almost to the ground. The length would be, apparently, anywhere from four to six feet.

When they hoot at his claims and discount his narratives he says: "Gentlemen, the camera tells no lies. Here is a photograph of the monster, the largest ever taken from the lake. See for yourselves."

Special Assessment Tax Notice.

To whom it may concern:—The special tax rolls for the paving of South River street, between Milwaukee and Pleasant street, and south main street between Milwaukee and South First street, and the warrant for the collection of the same, are now in my hands for collection. All persons interested are requested to make payment of the same at the office of the city treasurer, or the same will be collected at the cost and expense of the persons liable for the payment of said special tax.

Dated this 11th day of September 1894. JAMES A. FATHERS, City Treasurer.

Butchers to Close Early.

On and after Monday, October 1, and until May 1, 1895, the meat markets will close every evening except Saturday at 7 o'clock. No orders will be taken after 6 o'clock Saturday evening for delivery on that same evening, and there will be no Sunday delivery, neither will the markets be open on that day.

VARIOUS INDUSTRIES.

Tea cultivation is a coming industry of Hawaii.

A good quality of rope is now being made from pineapple fiber.

The price of camphor advanced 100 per cent as a result of the Korean war. Paper is beginning to crowd out rubber as the material for bicycle tires.

In 1825 the price of gas in New York was \$10 per thousand feet. In 1840 it was \$7. In 1855 it was \$2.50. Now it is \$1.25.

In 1874 the equipment of the New York elevated railroad was six engines and ten cars. In 1894 the equipment of the New York elevated system consists of 331 locomotives and 1,116 cars.

For the last two or three years England experienced a drought so severe that its agricultural products were seriously injured. This year, however, crop conditions seemed favorable, and the greatest acreage yield in the world was promised. But heavy rains set in, and almost entirely ruined the wheat crop of Great Britain.

There is a man in Boston who makes it part of his business to repair shirts, and he finds plenty to do. Shirts of very respectable folks come to him to be cured of their ills, and go forth looking like new garments. If a man of fashion be not content, like ordinary mortals, to buy his shirts at \$1, \$2, or \$3 each, but must pay \$60 per dozen, when hard times overtake him and duns pour in, his only recourse is the shirt repairer.

Where He Drew the Line.

"You have called me a pitiful sneak, sir, a coward, a poltroon, a small-souled, miserly, overbearing brute," said the man on the north side of the line fence, removing his coat and rolling up his sleeves. "I don't allow anybody on earth to talk to me like that," he added, jumping over the fence and knocking his neighbor down, "except my wife."

BRIEF BITS OF HUMOR.

He Didn't Want to Work.
Mrs. Murray was reading a story to her son, Justin, aged five years.
Mrs. Murray—Now, Justin, if your father was to die would you work to help mamma?
Justin—Why, mamma, what for?
Haven't we got a nice house to live in?
Mrs. Murray—Yes, Justin, but we can't eat the house, you know.
Justin—Well, mamma, haven't we got a whole lot of good things in the pantry?
Mrs. Murray—Certainly, pet, but we would soon eat them up, and then what would we do?
Justin—Well, mamma, isn't there enough to last until you could get another husband?—Brooklyn Life.

AN OPTIMISTIC GYPSY.

Maud—And am I to lead a happy life?
Fortuneteller—Very. You will never know grief.
Maud—Delightful. And am I to marry?
Fortuneteller—Four times.—Harper's Bazar.

Theological Discussion.

"We don't play the piano at our house Sunday," said the first little girl, "and you folks do. We ain't heathens."

"Neither are we," said the second little girl, "but we don't believe in usin' up all our religion Sunday, so's there won't be none left through the week, like some folks does."—Indianapolis Journal.

Probably She Would.

Reggy—If you had been drinking a cocktail and kissed a girl afterward, do you think she would know it?
Tom—If I kissed a girl I think she would know it, whether I had been drinking cocktails or not.—Life.

Very Cheap Tea.

Housekeeper—Are you sure that this tea isn't half copperas?
Dealer (convincingly)—We couldn't afford to sell copperas at the extremely low price we charge for this tea, ma'am.—N. Y. Weekly.

Brotherly Love.

"I'm going to marry your sister, Johnny, and take her far away. What do you think of that?"
"Guess I can stand it, if you can."—Hullo.

A Circus, Anyhow.

Grandpa—Well, Sammy, where have you been to-day?
Sammy (just back from the National History museum)—Oh, we've had a fine time, grandpa. We've been to a dead circus.—Demorest's Magazine.

The Difference.

Though a woman will demand that the men get up and stand
And let her sit in tram cars when she rides,
You will hear the crack of doom ere she herself makes room
For another in a tram car when she rides.

As to the Inside.

Spindell—How are you going to carry all that bundle of auction trash home? On your head?
Spindell—No. On my wheel.

Spindell—Well, that's about the same thing.—Chicago Tribune.

Sure Enough.

Uncle Treepot—That helper is two years old.
City Niece—How do you know?
"By her horns."
"Oh, to be sure; she has only two."—Life.

Sorry He Spoke.

"Well, why don't you say that you wish you were a man?" asked Mr. Potts during a little discussion he was having with his spouse about some matters of domestic management.
"Because I don't wish anything of the sort," she retorted. "I only wish you were one."—Indianapolis Journal.
